

## *Reduced rates on service calls through July 2009!*

From now until the end of July 2009, Advance Cutting Systems (ACS) is running a special for on-site service calls. For our smaller machines, charges will be reduced from our regular rate of \$95 per hour to \$75 per hour. Additionally, our regular travel charges of \$65 per hour will be reduced to \$45 per hour. All other travel expenses, including per diem, are unchanged.

For our larger machines, on-site charges will be reduced from \$115 per hour to \$95 per hour, and regular travel charges of \$75 per hour will be reduced to \$65 per hour. All other travel expenses, including per diem, remain the same. If you are not sure which rate\* applies to you, please call the number below.

Please remember that we also have technicians available to help you over the phone. This is a free service provided to our customers that could possibly save you from having to pay for an on-site call. We hope that you will take advantage of this benefit.

If we may serve you in any other way, please call us. We greatly value you and your business, and we wish you continued success.

*\*(NOTE: The above rates apply to ACS technicians only. Independent contractor rates will be higher.)*
